-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 1-33,37-40 and 43 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group or species, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on 27 Feb 06.
2. The abstract of the disclosure is objected to because the reference to figure 1 needs to be removed. Correction is required. See MPEP § 608.01(b).
3. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.
4. Claims 34-36,41 and 42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 34, the last term "the region of the holding device" lacks proper antecedent basis. It is not clear what the scope of this region is, or if it is the same as, or overlaps with, previously recited regions.

In claim 36, the phrase "in the plane defined by the cutting edge" is indefinite. The cutting edge is one-dimensional and inherently does not define any plane, thus it is not clear what would or would not infringe on this claim.

Art Unit: 3724

In claim 41, the phrase "the extent of which" is indefinite. Is the word "which" referring back to the motor, flywheel or sleeve?

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 34-36, 41 and 42 are rejected under 35 U.S.C. 102(b) as being anticipated by Kawara et al.'249, who shows a razor with all of the limitations as seen in figure 9. The flywheel vibration device (150-152) is in the same region as the blade mount (132). The blade is vibrated along its cutting edge (lines 43-45, column 2).

7. Made of record but not relied on are patents to Labarbara and Douglas showing vibrating razors.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ken Peterson whose telephone number is 571-272-4512. The examiner can normally be reached Mon-Thurs, 7:30AM-5PM

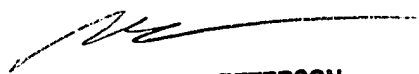

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan Shoap can be reached on 571-272-4514. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
